Str.Mihai Viteazul, Nr.342, Judet Covasna, 525300, Întorsura Buzăului, Romania

About me:

I've become passionate about learning and coding since I discovered programming. Self-taught and persevering in the development of dynamic, scalable, and user-friendly web solutions with the latest technologies that include HTML, CSS, JavaScript, React.js, and Tailwind. I am highly dedicated, self-motivated, with great communication skills. Eager to learn and grow in a fast-paced tech company.

● PROJECTS

Site for Portfolio Presentations

<https://eduardbede.github.io/webPortfolio/>

This project is made to show what I learned in the self-taught process.

- Build with React, Tailwind, and Framer Motion library
- I improved my knowledge of React and UX/UI

- I challenged myself to implement a good UX and UI compared to my other projects

Phone Service and E-Commerce

<https://eduardbede.github.io/phoneServiceAndSales/>

A hobby of mine is repairing phones, so I making a presentation website that also includes an online store.

- Is build with HTML, CSS, JavaScript and jQuery
- You can add the products to the shopping cart
- I used localStorage to stograge new registered accounts and to add products on each individual account
- It was a challenge to do this project, I encountered problems when I had to add the products to the shopping cart for each individual account

Weather Application

<https://eduardbede.github.io/weatherApp/>

The first project built with React, Tailwind, and Luxon. I always want to see what the weather is like to schedule my activities, so I decided to make an application for that.

- I learned to use Hooks
- I created components and learned what "props" are
- Practicing how to process data from the REST API
- Dark mode/Celsius to Fahrenheit feature
- A challenge was the search for locations and displaying hours correctly depending on the time zone
